

Instructions on receiving your Global Settlement Funds

It's been a while since I sent out the Receiving Reminders for those of us in the prosperity programs which are currently funding. The information we receive with delivery and/or at the bank will tell us exactly how to proceed; we need to follow the OFFICIAL INSTRUCTIONS we receive EXACTLY. The information below should be considered SUGGESTIONS only. It's your choice whether you use these suggestions. Our OFFICIAL INSTRUCTIONS we receive are our BEST SOURCES of guidance.

I'm including the annotation "[NEW INFO]" on each item recently revised. Some items have changed because current conditions of funding are different from when I last revised these Reminders.

I suggest you PRINT OUT the info below for reference in the NEAR future. I suggest we give a PRINTED COPY of this message to all those whom we have "gifted into the program" so they have information in addition to their official instructions. Please SAVE this email for future reference.

The announcement of NESARA changes and/or eliminates many of our laws. We need to pay attention to the changes in our laws in ALL we do. Some of the reminders below may need to be revised due to NESARA's changes and YOU will need to determine this for yourself.

Once the remaining U.S. mass deliveries are occurring/happen, I will STOP sending any info regarding our program or our funding due to the Non Disclosure. I WILL CONTINUE to provide OTHER USEFUL information about topics important to us all.

I've had lots of questions regarding people whom we have "Gifted In", and what happens if they are absent from the delivery address when the big moment arrives. If we have gifted people into the program and have their deliveries coming to us, I'm told we should have a list of their names and addresses to give to the delivery person.

This list will help the White Knights to find these people and deliver directly to them at their PHYSICAL locations as the WORLD COURT REQUIRES. If you have "gifted in" people's deliveries coming to your address, the White Knights have had to set up the person's bank appointment in a funding bank near your location and those gifted in will probably come to the funding bank near you for their appointments. If they need help with travel expenses, I understand there will be instructions to them about how to obtain this kind of help.

If you have a P.O. Box delivery address, the White Knights already have a cross index of your physical location address from the Postal authority and will attempt to deliver to you at your physical location. If they are unable to find you by researching your current physical location, after a few weeks they will leave an "attempted delivery notice" in your P.O. Box telling you how to make contact to obtain your delivery.

For those who have ZERO physical location associated with their PO Box, I'm told an attempted delivery notification" will be left telling you how to make contact to obtain your delivery.

For those with Mailbox Etc. type mail service, an attempt will be made to deliver to your physical address and if unable to find you at a physical location, an "attempted delivery notification" will be left telling you how to make contact to obtain your delivery. Because of the LEGAL issues and huge amounts of money involved, in most of the prosperity programs every delivery must be signed for by the recipient.

[NEW INFO] If you have changed your address, moved, and/or have a new physical location, you need to make sure your Postal Authority has the correct physical location for you, if possible. The White Knights have gone back over 15 years of Postal Authority forwarding records to track and trace prosperity programs and Farm Claims/Bank Claims recipients. They have found over 95% of the people in these programs using Postal and other records. They will have ways of making sure that they find everyone who possibly can be found. We may even see notifications in the U.S. newspapers of our big program funding AFTER the Non Disclosure is EXPIRED as a way of letting people know this is happening and a "contact process" if you JOINED the prosperity programs/claims and think you were missed by the delivery process.

I'm told that all U.S. citizens will have PUBLICLY announced new prosperity options which will be WELL PUBLICIZED and organized in an open manner. When people join these new programs, they will have documentation showing they joined and when they can expect to begin receiving their prosperity. Anyone who missed getting into the currently funding prosperity programs will be eligible to apply for the new prosperity programs. I'm told these new prosperity programs will begin disbursing to the new prosperity programs' members early in (2013)

Please remember, the banks will be VERY BUSY the next few months with all the banking changes; we may need to go to the bank location specified, regardless of where we live now. The banks may be too busy to shuffle our prosperity all over the country to another bank location for us any time soon.

This is the best information I have today. Remember, your OFFICIAL INSTRUCTIONS are your BEST SOURCE of guidance.

RECEIVING REMINDERS

I've received information that our accounts are set up under the NEW regulations of the new banking system and these new regulations are designed to MAXIMIZE PERSONAL PRIVACY for us. Once our new NESARA U.S. Treasury Bank System is announced, I'm told that all accounts will have more privacy and banking staff will be retrained to honor customers' privacy.

I'm told that we have "premium accounts" and that we need to keep DOUBLE the minimum balance in these initial premium accounts at all times as ALL of our phases of prosperity payout are flowing to us through these accounts in the U.S. Treasury Banks or designated funding banks

of our own country/area. For us in the big program, I'm told we should keep DOUBLE the minimum balance and right now, I'm told, [NEW INFO] that DOUBLE the minimum is \$4,000,000. My sources say the extra amount in the premium account is to pay FEES that may be charged. If we ever close this account or fail to keep enough money in it and fees charges end up closing it out, we will be UNABLE to get the remainder of our phases of prosperity payout which are coming in the future. Therefore, we must keep enough funds to cover any fees and the minimum balance at all times.

I'm also told that the OFFICIAL INSTRUCTIONS we are receiving for the big program are UP-TO-DATE and HONEST. I'm told that by following the instructions fully, we are building a "firewall" of protection around ourselves and our prosperity.

The main thing is, we READ CAREFULLY everything we receive and UNDERSTAND it all THOROUGHLY before we take action.

To be safe, if you have any questions I suggest you OBTAIN YOUR OWN EXPERT ADVICE under the new conditions in which we find ourselves.

These Reminders cover a BASIC list of issues we need to consider.

1. I'm hearing both sovereigns and non-sovereigns state they are signing for the delivery of the envelope(s) with just their normal signature.

Signing documentation actually connected to our prosperity is another matter. [NEW INFO] I'm told the ND and instructions we receive at the bank for SOME of the programs do discuss whether it's beneficial to sign with the Non Assumpsit Clause. Again we need to pay attention to our OFFICIAL information we receive.

Regarding signing for our big program prosperity, I have been advised that it is beneficial to sign using the Non Assumpsit Clause immediately ABOVE our signature because this protects our rights.

Below are two versions of the Non Assumpsit clause.

[NEW INFO] I'm using the spelling "Unalienable", which is what the Declaration of independence uses, and I'm told that the spelling with the "u" – "Unalienable" - is the most appropriate spelling.

"Non Assumpsit without prejudice reserving all natural God-given unalienable birthrights waiving none ever."

OR the second version is:

"Not Assumptive without prejudice reserving all natural God-giving unalienable birthright waiving none ever."

If you use this clause, it must be printed or stamped, preferably in blue ink, immediately ABOVE your signature on the document for it to take effect. If we sign a document in multiple locations, I'm told we can print this clause above the LAST time we sign and it will be effective for the entire document.

2. We need to carefully read all Non Disclosures (ND) and make sure we understand EVERY word, phrase, and requirement FULLY.

[NEW INFO] I'm told those of us in the big program will also be receiving funds from some other programs and that these other programs have their own Non Disclosures with different lengths of time for these other Non Disclosures. We need to do our paperwork as required at the bank and follow the requirements for these programs.

We are hearing the ND says during the ND period we must AVOID telling anyone that our blessings come from our program. This means we totally "AVOID USING or SAYING the NAME of our program" during this time. We also must avoid admitting anything about where our funds come from if anyone ASKS us questions about our blessings. We must pretend for the ND period that we totally lack any knowledge of our program.

[NEW INFO] As of today, I'm being told that we MAY NEED TO USE some of the funds from these additional programs, BEFORE the ND expires for these other programs, in some way that shows we are using the funds for 'improvements projects'. We need to pay close attention to these requirements. I'm told the best way is to set up other financial entities to which we transfer funds for doing world improvements. I'm told we must do our improvement projects under cover of these financial entities (anonymously) until the ND expires for these other programs. We will have our big program funds with which to set up these financial entities.

If anyone, for example a Real Estate Agent, asks us from "where" our funds come, I'm told we can say: [NEW INFO] "I'm under Non Disclosure about the source, AND, I have Triple-C documentation from the bank stating that the funds are Clean, Clear, and Non-Criminal in origin."

ALL anyone deserves to know is that the funds are CLEAN, and we all will have documentation proving this. That's all we have to tell them. We may have this question about the "source" of our abundance come up when we purchase real estate or other expensive things. This is why, to cover all these needs for a few months, we need numerous copies of the Triple-C documentation.

[NEW INFO] Regarding taking an attorney to the bank, CHECK your OFFICIAL instructions about this. I'm told that we in the big program are PROHIBITED from taking an attorney or having ND and instructions reviewed by someone else during the Non Disclosure period. AFTER the ND EXPIRES for the big program, I'm told we can have the instructions for the BIG PROGRAM reviewed by advisors.

I'm told that for the programs connected to the Big Program, we need to wait until the ND EXPIRES for EACH PROGRAM before having advisors review the instructions for the other

programs.

3. [NEW INFO] I'm told we will be shown a listing in a computer screen at the bank of all the programs from which we are receiving funds and the amount per program. We will have to wait for a while for the ND on each program to expire before we will be given a printed copy of this list.

4. IF we have a Non Disclosure for a period of time, we will need numerous copies of CCC documentation to get us through the ND period. We can obtain numerous certified copies of the Triple-C documentation for our funds from the bank; request these on our FIRST visit and, if necessary, give the bank a few days to get them ready.

We heard that people who received test deliveries DID receive 3 copies of CCC documentation with their debit card when they went to the bank. From this, it appears the bank will have a few CCC copies ready when we arrive to pick up our credit/debit card(s).

The bank MUST give us this documentation -- it's part of their responsibility and service. Keep the copies in various safe locations away from the bank. We will need "Triple-C documentation" from our bank when we transfer funds and it certifies that our funds are "clean, clear, and non-criminal" in origin.

5. Debit/Credit Cards: I'm told we will be receiving debit and/or credit cards for some of our numerous "pots of money" we are receiving. If we receive DEBIT cards, we need to be cautious in how we use them. We need to use our "debit cards" ONLY to TRANSFER funds to other bank accounts. It is DANGEROUS to use these debit cards for routine purchases because someone may take our debit card number and use it to illegally purchase things.

I am also told we will be informed of how to transfer funds using these debit cards in order to make large, SECURE purchases. Just remember, our program debit cards in the wrong hands will give a thief the ability to access our funds.

I may open smaller bank accounts and have a debit card on the smaller account that I use to make purchases. I also intend to obtain an Exclusive Visa for making purchases; our assigned private banker will be able to obtain this for us, I'm told. (Exclusive Visa is for wealthy people only.)

6. Regarding any gold certificates we may have, we need to pay close attention to what the instructions tell us about these. When we see this information ourselves, we will know what our options are. [NEW INFO] I'm told we should REFUSE any "line of credit" that a banker may want to offer us against our gold certificates and/or any other funds we are receiving because this gives the banker CONTROL of our prosperity.

[NEW INFO] I'm told that our bearer bonds and/or gold certificates are a big part of the world economic stability formulas and structures. I'm told we can obtain copies of the bearer bonds and gold certificates after the Non Disclosure expires. I'm told most of us will receive instructions

telling us our gold certificates and/or bearer bonds are to be kept in our U.S. Treasury Banks and being kept in the bank vault (except for the relatively few who will have different instructions). I'm told that the gold certificates and bearer bonds have identifying information which links us to these assets. The White Knights have a database linking our name/funding name to each gold certificate and bearer bond we are receiving for security purposes. I'm told that prior to our Non Disclosure expiring, we may be able to request a list of our gold certificates by their identifying numbers and our bearer bonds by their identifying numbers showing that they belong to us, but WITHOUT amounts to help keep us from breaching our ND regarding "amounts".

[NEW INFO] I was told by a White Knight source that there are at least TWO copies of our gold certificates and bearer bonds. I'm told that the certificates are required to be kept at the bank, however, after the ND expires, I'm told we can take our copies out of the bank and put them in safe locations away from the bank. I'm told we need to keep these copies in different SECURE and Fireproof locations. One option might be a hidden SAFE on property we own.

I'm told the gold certificates have some connection to the Treasury Bank system being put into place and that most of us will receive instructions telling us to keep these gold certificates in the bank. I'm told that, at a later date, we will be able to convert them to cash if we wish. I'm told that ALL this is explained in our information we will receive.

This is the best information I have on this at this time.

7. SCAM artists are still likely to target us -- there are many who have been waiting for this funding to run their scams. If a STRANGER calls or visits us to offer investment services, humanitarian projects, or to "confirm" or "audit" that we received our blessings, -
- THIS IS A RED FLAG! Hang up or shut the door immediately and avoid admitting receiving your blessings.

With NESARA's announcement, the IRS will be GONE. Therefore, anyone pretending to be a tax auditor or someone from the delivery service confirming you received -- THESE are TRICKS to try to get us to breach our ND and lose our prosperity! We need to refuse to talk with them.

8. Security of ourselves, our homes, and our families must be handled. Some prosperity members, who have already received, have had strangers walk up to their doors offering investment services (BEWARE of SCAM ARTISTS) or asking for handouts. These people obtained the prosperity members' names illegally -- our names and addresses are supposed to be kept confidential. We all need to take security precautions - electronic security systems at home and offices, and personal security of children and elderly family members. Some residential areas are more secure than others -- we need to consider these things when we buy new homes.

9. [NEW INFO] Obtain EXPERT ADVICE regarding putting our funds into other financial entities -- such as foundation-type entities, etc., --rather than our personal names. This is to increase our privacy from annoying or dangerous contacts. I'm told there will be new options in

financial entities after NESARA and the worldwide banking and common law changes within six months of NESARA's announcement.

I'm hearing that it's wise to put our prosperity in MORE than ONE entity. For added safety, I'm hearing it's good to use more than one firm to assist us in setting up various financial entities and have more than one expert involved.

A "financial entity" is a trust, foundation, company, etc., into which we place our prosperity so that we have more personal privacy and more diversification of our funds. Definitely, we want to avoid "putting all our eggs in one basket". I'm hearing it's extremely important that we PERSONALLY approve EVERY DETAIL of all our financial entities, to avoid possible losses.

This is WHY I have been saying, each of us must set up OUR OWN financial entities and KNOW every detail ourselves. We need to avoid putting all our funds into any single financial entity and certainly, ONLY into those which WE PERSONALLY have set up.

With a trust, WE must know Every Detail, WHO the trustees are and WHAT their POWERS are, and make sure WE have control of the funds at all times. If we have an unscrupulous trust or trustee, our funds can be stolen from us. If what I'm hearing is correct, we may have better and new options surfacing -- we need to keep our eyes and ears open about these kinds of things. I'm hearing there are NEW kinds of CORPORATIONS coming after NESARA. I expect to set up some of my improvement projects utilizing some of these new financial entity options.

It's important to take our time and get educated about our options before we make any decisions. Stay quiet, research what our options are and obtain EXPERT ADVICE based on CURRENT conditions after NESARA. It may take a few months for some of the major improvements to be completed.

10. BEING QUIET and PRIVATE about our good fortune, especially during the ND period, is key. I'm told we have good suggestions about how to be low profile and safe in our OFFICIAL instructions.

11. AVOID SAYING anything to anyone about the AMOUNTS of money we are receiving is another KEY POINT in the ND, I'm told. Avoid talking on unsecure phone lines, in email, chat, or faxes – avoid discussing anything about our amounts or that our funds are coming from our program. There are ways to tap into all our communications. We need to get encrypted communications capabilities (a standard procedure for many rich people) to talk to our legal/financial advisors and others.

Some of us plan to communicate about doing projects together and this kind of communication must be done via encrypted communications.

After reading the ND and to avoid any possibility of breaching the ND, we may decide to do small projects individually at first. Then after the ND expires, we will be free to do bigger projects together. We need to be very careful about all our communications.

12. Watch the changes in our country and the world -- keep track of CHANGES in LAWS and BANKING SYSTEMS. Research what we need to do under the new laws and banking conditions.

I will be asking some top experts who helped put together the new banking and monetary systems plans to talk to us about how to manage our wealth. I've just begun to explore this and will make known to you how you can tune into this. After the Non Disclosures expire, I will be looking at making this kind of seminar available by television with perhaps some interactive question and discussion capabilities.

A live seminar would be wonderful, however, for the 6-12 months it's unwise for a big number of us to be in the same physical location. A large number of multi-zillionaires all in one place would be a big target. We need to avoid meeting in large numbers for a while for security reasons.

13. [NEW INFO] Per my info, we will be instructed to give away funds to "people" – ordinary people. There are ZERO requirements that these people be some kind of "saint" or some great hero. The point is to GET the MONEY OUT INTO THE ECONOMY.

I'm told that the best way to AVOID breaking our Non Disclosures (ND) is to WAIT until AFTER the Non Disclosure EXPIRES BEFORE giving away any funds. The Non Disclosure (ND) for the big program is for a very BRIEF time, I'm told. Then we have a MONTH AFTER the ND expires to give the funds away.

I'm informed that one of the FEW restrictions in our instructions is that we are PROHIBITED from giving funds to someone we KNOW is in the prosperity programs. I'm told this is because those people will have their own funds. This obviously explains why those who have received in the past have been UNABLE to give to those of us in the programs having financial problems.

I'm told that ideally we will have the bank cut certified or cashier's checks for us for each person to whom we are giving away funds. This is because it will make it MUCH easier for the authorities required to monitor how well we are doing to determine if we are doing our give aways properly by having records from the banks for the authorities to check. We need the proper spelling of people's names and their addresses to give to the banks to do this for us. I'm told our official instructions go into detail about how we are to do this and we MUST FOLLOW the OFFICIAL instructions.

14. [NEW INFO] We in the big program will have OTHER HUGE AMOUNTS of "prosperity program" money FOR OUR OWN USE, MUCH MORE than the amount we are giving away. I'm told that we MUST pay STRICT attention to the OFFICIAL INSTRUCTIONS about what we can do when using our own program funds for ourselves. Basically, my information indicates it may be best to wait until the ND expires before using any of our money for ourselves. As I said, the ND period for the big program is a very BRIEF timeframe. We can leave the bank with some cash or some other forms of money, I'm told, to help us get through the brief time until the ND EXPIRES.

AND, let's all take some time and RELAX and recharge ourselves.

BE HAPPY, enjoy life and our loved ones!
